Présentation

Description

This is a 3-5 months paid interships.

For Poitiers Undergraduates this research internship should be carried out in a laboratory abroad or in a company.

For other french Undergraduates this research internship should be carried out in a laboratory abroad, in a company, or in a non-partner research department at his or her master

For Undergraduates from other countries this research internship should be carried out in any department of the two associated institutes.

In all cases they must be confirmed by the pedagogical team of the IntREE-GS.
